- Proven track record to add value and deliver exceptional results, both top and bottom line, through people, process, technology

- Had “bodyguards” to protect me in business situations, then built relationships with those I was protected from
- Success in executive and hands-on roles across industries, including energy (Calgary), two large health care systems (VP) in the USA, and for a Private Equity firm (VP), I oversaw a subprime mortgage servicer during the USA real estate/ mortgage crisis and turned around 2 near bankrupt companies to become profitable.

I have a great and successful business career. I love Canada, and after 8 years of Trudeau and what he has done to our country, I am compelled to pour myself into helping Pierre Poilievre and his team “fix” the mess Trudeau has created. I am a successful transformational results-oriented business executive who has the skills our country needs. My experience well-qualifies me to put my proven skills to work for our Country. I would love to be your voice in Ottawa.
