The Business Experience with People Focus that Our Country Needs; Vote for Kelly Hopper

- Successful career where my skills have been used worldwide (10 countries: in N America, Europe, Asia)
- Proven track record to add value and deliver exceptional results, both top and bottom line, through people, process, technology
- I have spent 20+ years as a finance & operations executive (& accountant) who works to solve problems; I am often pulled into troubled and growth areas of companies to help “fix”, “build”, transform, and I love doing this in a way that balances my strong results orientation with valuing people as the most important assets
- Had “bodyguards” to protect me in business situations, then built relationships with those I was protected from
- Success in executive and hands-on roles across industries, including energy (Calgary), two large health care systems (VP) in the USA, and for a Private Equity firm (VP). I turned around 2 near bankrupt companies to become profitable.
- Extremely strong business resume: Please connect with me, and see more detail of my background; I would love your support to put my skills to work for our constituency and country!

Why I am running:

I have a great and successful business career. But moreso, I love Canada and its people, and after 11 years of Liberal government; what Trudeau did to our country and watching Carney deliver the highest deficit ever, break promises, & NOT DELIVER for Canadians, I am compelled to pour myself into helping Pierre Poilievre and his team “fix” the mess 11 years of Liberals have created. I am a successful transformational results-oriented business executive who has the skills our country needs. My experience well-qualifies me to put my proven skills to work for our Country. I would love to be your voice in Ottawa and re-strengthen Calgary Confederation.
